Women in the City is an immersive audio walk created to celebrate Women in Tāmaki Makaurau. The walk is a kaleidoscope of real-life stories, biographies of iconic wāhine, anecdotes and everyday women woven together through a fictional narrative.

The women's voices come together in a beautifully curated audio story that celebrates their legacy as women who live, work, love, lose, forgive and find their own path to feel alive in the city.

Discover the city with them.
